AND DILIGENCE

## **NH<sub>3</sub> Ammonia**

### **Description**

Ammonia is a commonly used product in several processes, especially during the cooling process.

Employees working with this type of product should be aware of the risks associated with its use as well as the means of protection.

The training aims to raise awareness about ammonia and the risks related to its use.

### **Target Audience**

All staff members who work with circuits containing ammonia.

### **Objectives**

Raise awareness of the dangers of ammonia.

### **Course Content**

- Legal context;
- Limits to ammonia exposure;
- Dangers and consequences of ammonia exposure;
- Intervention steps;
- Use of selectors (simple gas NH<sub>3</sub> et 4 gas);
- Bump Test;
- Masks and cartridges.

### **Educational Approach**

PowerPoint presentation.

## **Material Provided**

None.

## **Evaluation**

None.

## **Duration**

2 hours
