

PERFORMANCE
AND DILIGENCE

Lantic

Lantic Sugar Limited and Rogers Sugar Ltd. merged into a new operating entity now known as Lantic Inc., on June 30, 2008. The two companies worked together as one for a number of years prior to the amalgamation. The finest traditions of both companies form the foundation of a culture that is national in character and diverse in ambition. We have entered a new and dynamic era in the life of our company, which began over a century ago.

We are fully Canadian owned. The established trademarks of Lantic and Rogers are being used by Lantic Inc. as we leverage the historic brand awareness we enjoy in Eastern Canada with the Lantic name and in Western Canada with the Rogers name.

Lantic Inc. operates a cane sugar refinery in Montreal, Quebec and Vancouver, British Columbia, as well as a sugar beet factory in Taber, Alberta. For over 125 years, we have been offering a full range of all natural, high quality sugars with various crystal sizes, granulated, brown, icing, liquid, invert and dry blends. We also carry a wide range of sweeteners including organic, fairtrade, stevia blends, agave, Smart Sweetener Blend, coconut sugar and Plantation Raw™ sugar.

With the acquisition of L.B. Maple Treat Corporation and Decacer, we now also carry a range of authentic maple syrup products for both retail and industrial markets. Our goal is to offer the best quality sugars and sweeteners to satisfy our customers.
